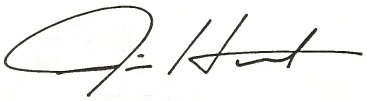
1981-1982 DIRECTORY OF NORTH CAROLINA MANUFACTURING FIRMS

NOV 18 1980

Governor's Message



You will be impressed, I'm sure, with the way we do business as a State. Our budget is balanced. Our credit rating is triple A. There is a very favorable attitude toward business throughout the hundreds of cities, towns and communities across North Carolina.

We have an excellent transportation system for moving your products to markets across the country and abroad.

We offer many incentives to industry, such as training, financial assistance and location services but we are most proud of our fine people. They're hard-working, industrious and productive.

Hundreds of corporations have discovered in recent years that the partnership which exists between industry and government in North Carolina can be mutually rewarding.

I want to extend a very special invitation for you to work closely with our industrial development staff which stands ready to assist you with any requirements you may have. And I want to extend a very personal welcome for you to visit North Carolina and see for yourself what we have to offer.

Governor

INTRODUCTION

The **1981-82 Directory of North Carolina Manufacturing Firms** is published by the Department of Commerce as a service to the state's industrial establishments. It contains six sections which present information for some 6,900 manufacturing firms alphabetically, geographically, by product, by materials purchased, by a company-parent-company cross index, and an export-import guide.

The alphabetic index is a complete alphabetical listing of all manufacturing firms reported in the **Directory.** It contains the name of each firm and the city or town location. Also, it indexes the firm in the geographic guide. The georgraphic guide provides the most comprehensive listing. It includes mailing and street addresses; city, county and region; company headquarters; parent company; chief executive and title; import-export activities and the name of export manager; year plant was established; phone number; employment range; and a description of products manufactured. The product guide lists the mailing address, city, county, phone number, employment range and product description. Arrangement in this section is by four-digit Standard Industrial Classification (SIC) code. The purchase guide lists the mailing address, city, county, phone number, employment range and description of company purchases. Arrangement in this section is by two-digit SIC code.

Data in this **Directory** was prepared during a 1980 survey of North Carolina manufacturing firms. Considerable effort has been made to compile a complete list of the state's manufacturing firms; however, it is possible that some companies have been omitted inadvertently. Your assistance in helping identify these firms is solicited.

The Division of Industrial Development appreciates the cooperative efforts of North Carolina's manufacturers in submitting data for this **Directory.** An accurate inventory of the state's manufacturing firms is a vital tool in planning for the economic growth of North Carolina.
